2008 Prehospital Patient Care Protocols
for
Basic Life Support and Advanced Life Support Providers

TABLE OF CONTENTS

- I. INTRODUCTION AND USE**
- II. ACKNOWLEDGEMENTS**
- III. ADMINISTRATIVE**
 - 1. Interfacility Transfer of Acutely Ill/Injured Patients**
 - 2. Patient and Scene Management**
 - 3. Documentation and Confidentiality**
 - 4. Treatment of Minors**
 - 5. Patient Refusal**
 - 6. Do Not Resuscitate (DNR)**
 - 7. Cease Resuscitation**
 - 8. Traumatic Cease Resuscitation**
 - 9. Infection Control**
 - 10. Patient Direct Admissions**
 - 11. ALS Drug Box Policies and Procedures**
 - 12. Patient Destination Policy**
 - 13. Hospital Diversion Policy for Emergency Patients**
 - 14. Nerve Agent Antidote (Mark 1 Kit) Policy and Protocol**
 - 15. Treat and Release Policy at Mass Gathering Events**
- IV. CLINICAL PROCEDURES**
 - 1. 12 Lead EKG**
 - 2. Capnography**

3. Chest Decompression
4. Combitube
5. Pulse Oximetry
6. Patient Restraint
7. Adult Sternal IO
8. Surgical Cricothyrotomy
9. Temperature Measurement
10. Synchronized Cardioversion

V. MEDICAL PATIENT CARE

1. Allergic Reaction
2. Anaphylaxis
3. Assessment—Medical
4. Asthma / COPD
5. Cardiac Emergency Care
 - 5-1. Non-Traumatic Chest Discomfort
 - 5-2. Comprehensive Emergency Cardiac Care Algorithm
 - 5-3. Ventricular Fibrillation / Pulseless Ventricular Tachycardia
 - 5-4. Pulseless Electrical Activity (PEA)
 - 5-5. Asystole Treatment
 - 5-6. Bradycardia
 - 5-7. Tachycardia
 - 5-8. Electrical Cardioversion
 - 5-9. Post Resuscitation Support
6. Cerebrovascular Accident
7. Congestive Heart Failure (Pulmonary Edema)
8. Difficult Airway
9. Difficulty Breathing
10. Dystonic / Extrapyrarnidal Reactions
11. Eclampsia
12. Gastrointestinal Hemorrhage
13. Hyperglycemia
14. Hypoglycemia
15. Hypotensive (Symptomatic) Cardiac Patient
16. Hypovolemic Shock—Medical (Non Cardiac)
17. Labor and Delivery
18. Non-Traumatic Abdominal Pain
19. Non-Traumatic Ophthalmological Emergencies
20. Pain Management—Medical
21. Poisoning / Overdose
22. Seizures

23. Sickle Cell Anemia Crisis
24. Syncope / Fainting
25. Unconscious Patient / Altered LOC (Unknown Etiology)

VI. TRAUMA / ENVIRONMENTAL PATIENT CARE

1. Patient Assessment—Trauma
2. The Trauma Patient—Initial Management
3. Amputated Part
4. Burns
5. Evisceration
6. Head Injury
7. Impaled Objects
8. Inhalation Injuries
9. Hyperthermia / Heat Stroke
10. Hypothermia
11. Snakebites
12. Spinal Injury
13. Thoracic and Abdominal Trauma
14. Trauma Patient Pain Management

VII. BEHAVIORAL PATIENT CARE

1. Behavioral Emergencies
2. Sexual Assault
3. Suicidal Patient
4. Violent and / or Agitated Patient

VIII. PEDIATRICS

1. Introduction and Use
2. Assessment Pediatric Patient
3. Medical Patient Care
 - 3A. Altered Level of Consciousness (ALOC) / Coma
 - 3B. Anaphylaxis
 - 3C. Asthma / Wheezing / Bronchiolitis (RSV)
 - 3D. Asystole / Pulseless Arrest
 - 3E. Bradycardia
 - 3F. Comprehensive ALS Pulseless Arrest Algorithm
 - 3G. Comprehensive BLS Pulseless Arrest Algorithm
 - 3H. Epiglottitis
 - 3I. Fever

- 3J. Foreign Body Airway Obstruction
- 3K. Hyperglycemia
- 3L. Hypoglycemia
- 3M. Newborn Resuscitation
- 3N. Poisoning
- 3O. Seizures
- 3P. Tachycardia
- 3Q. Ventricular Fibrillation / Ventricular Tachycardia
- 4. Respiratory Distress / Failure
- 5. Shock
- 6. Suspected Child Abuse
- 7. Trauma Patient Care
 - 7A. Abdominal Trauma
 - 7B. Burns
 - 7C. Chest Trauma
 - 7D. Drowning / Near Drowning
 - 7E. Electrical Injuries / Lightning
 - 7F. Head Trauma
 - 7G. Hyperthermia
 - 7H. Hypothermia
- 8. Medications Reference - Pediatric
 - 8A. Drugs / Medications Chart
 - 8B. Epinephrine Dosages for Cardiac Events - Pediatric

IX. COMMUNICATIONS

- 1. Systems
- 2. Format and Summary

X. MEDICATION REFERENCE

- ALS Drug Box Contents
- ALS Drug Box Diagram
- 1. Adenosine (Adenocard)
- 2. Albuterol (Proventil, Ventolin)
- 3. Amiodarone (Cordarone)
- 4. Aspirin
- 5. Atropine Sulfate
- 6. Bumetanide (Bumex)
- 7. Calcium Chloride
- 8. Dextrose, 50 percent (D-50W)
- 9. Dextrose, 25 percent (D-25W)

10. Diazepam (Valium)
11. Diphenhydramine (Benadryl)
12. Diltiazem (Cardizem)
13. Dopamine (Intropin)
14. Epinephrine 1: 1000
15. Epinephrine 1: 10,000
16. Furosemide (Lasix)
17. Geodon (Ziprasidone)
18. Glucagon
19. Ipratropium (Atrovent)
20. Lorazepam (Ativan)
21. Magnesium Sulfate
22. Metoprolol (Lopressor)
23. Morphine Sulfate
24. Naloxone (Narcan)
25. Nitroglycerin (Nitrostate)
26. Oxygen
27. Sodium Bicarbonate

Regional RSI Medications

- RSI1. Lidocaine HCL
- RSI2. Atropine Sulfate
- RSI3. Etomidate
- RSI4. Versed (Midazolam)
- RSI5. Succinylcholine
- RSI6. Vecuronium Bromide (Norcuron)

XI. UPDATES
